

# RECLAMATION & NATIVE

## NATIVE GRASS MIXES - Prairie Wide Regions

| Mixture Name          | Composition   | Best Soil Type              | Seed Rate Per Acre     | Remarks  |
|-----------------------|---|-----------------------------|------------------------|--|
| Aspen Parkland        | 20% Fringed Bromegrass*<br>20% Green Needlegrass<br>15% Slender Wheatgrass<br>15% Western Wheatgrass<br>10% Rocky Mountain Fescue<br>5% Sloughgrass<br>5% Idaho Fescue<br>5% Alkali Bulegrass<br>5% Junegrass                             | Black                       | 9 - 14kg<br>20 - 30lb  | Pasture blend with native grasses adapted to the Black Soil Zone, intended for summer to early fall grazing. Wide range of adaptability to varying soil conditions.  |
| Moist Mixed Grassland | 20% Slender Wheatgrass<br>20% Rocky Mountain Fescue<br>15% Western Wheatgrass<br>15% Green Needlegrass<br>10% Idaho Fescue<br>5% Sloughgrass<br>5% Alkali Bluegrass<br>5% Junegrass<br>5% Purple Prairie Clover                           | Dark Brown                  | 13 - 14kg<br>24 - 30lb | Native pasture blend designed for the Dark Brown Soil Zone that can be used during the summer or as a stock piled pasture for Fall and Winter grazing.   |
| Mixed Grassland       | 25% Sheep Fescue<br>15% Green Needlegrass<br>10% Needle & Thread Grass<br>10% Indian Ricegrass<br>10% Western Wheatgrass<br>10% Northern Wheatgrass<br>10% Alkali Grass<br>5% Blue Grama Grass<br>5% Junegrass                            | Brown                       | 9 - 12kg<br>20 - 24lb  | Native pasture blend designed for the lighter soils of the Brown Soil Zone where tame forages and annual crops are not suitable. This blend offers a balanced ecosystem with grasses and legumes, that will thrive in variable soil conditions and textures. |
| Grassland Wet         | 25% Mountain Bromegrass<br>25% Violet Wheatgrass<br>15% Sheep Fescue<br>12% Western Wheatgrass<br>5% Fowl Bluegrass<br>5% Sloughgrass<br>3% Junegrass<br>3% Spike Trisetum<br>3% Tufted Hairgrass<br>2% Canada Bluegrass<br>2% Ticklegass | Irrigated                   | 9 - 14kg<br>20 - 30lb  | Native blend designed to be used prairie-wide in any area that may experience spring flooding followed by dry conditions as the Spring and Summer progress.  |
| Cypress Upland Blend  | 25% Rocky Mountain Fescue<br>20% Mountain Bromegrass<br>15% Bluebunch Wheatgrass<br>15% Green Needlegrass<br>10% Western Wheatgrass<br>10% Idaho Fescue<br>3% Junegrass<br>2% Canada Bluegrass  | Adaptable to all soil types | 9 - 12kg<br>20 - 24lb  | Depending on location, the components of this mixture will thrive differently, a PICKSEED sales representative can provide further information.  |
