

SCOTTISH FESCUE TURF MIX

- Excellent salt & shade tolerance
- Excellent drought tolerance
- Excellent weed control

APPLICATION RATE

2.5-3.5 kg/100m², 3-4 lbs/1,000ft²

DESCRIPTION

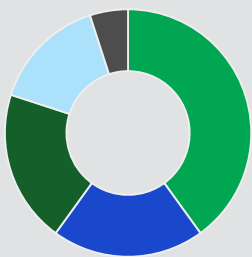

Scottish Fescue Mix is specially formulated for natural and low maintenance areas on golf courses. The blend is designed to provide a natural look throughout the entire season with minimal maintenance. Scottish Fescue will provide a golden brown colour in late summer and into the fall, highlighting the golf course and also providing great contrast.

Scottish Fescue provides a fast germinating and quick establishing stand that requires little to no maintenance. Once established, little to no irrigation or fertilizer should be applied.

Scottish Fescue has weak spreading ability.
