

PICKSEED 565MF Brand Alfalfa

PRODUCT FEATURES:

- Blend of 3 high performing alfalfa varieties
- High yields
- Offers extra genetic diversity

PICKSEED 565MF Brand is a blend of top performance alfalfa lines that conform to our alfalfa ideal type. These are pre-commercial varieties good enough to be eligible for registration in Canada, and which we could choose as commercial varieties. They are top performers, and blending them into a Brand offering allows us to make use of their powerful characteristics so that each line complements the other, producing strong field performance.
