

SPORTS TURF Non-Irrigated

General Description

SPORTS TURF (Non-Irrigated) is a proven mixture of PICKSEED's hardest varieties that have consistently performed on non-irrigated surfaces. It includes such notables as Mercury and Quantum Leap Kentucky bluegrass, both varieties have consistently proven superior performance over other Kentucky Bluegrass varieties on the field and in the NTEP trials.

Jasper Creeping Red fescue contributes its superior quality in color, texture, spreading ability and resistance to Helminthosporium leaf spot and melting out.

For quick germination, winter hardiness, dark green color, tolerance to summer stress and excellent mowability, Fiesta 3 Perennial ryegrass has been included. This superior variety is rapidly becoming the No. 1 choice of turf professionals.

Usage

Developed for athletic fields and high traffic areas that require the deep roots, wear resistance and toughness that only SPORTS TURF (Non-Irrigated) can deliver.

Adaptation

- Good germination and rapid development (Fiesta 3 Perennial Ryegrass & Quantum Leap Kentucky Bluegrass)
- Toughness and outstanding aggressiveness to force out weeds (Fiesta 3 Perennial Ryegrass, Quantum Leap Kentucky Bluegrass)
- Ability to heal quickly from traffic and machine damage (Quantum Leap & Mercury Kentucky Bluegrass)
- Good drought tolerance (Jasper Creeping Red Fescue, Quantum Leap Kentucky Bluegrass)

Mixture

25% Quantum Leap Kentucky bluegrass

25% Mercury Kentucky bluegrass

30% Jasper Creeping Red fescue

20% Fiesta 3 Perennial ryegrass

Limitations

Prefers full sun but will tolerate moderate shade.

Seed Rate

New Lawn: 1.5 kg/100m² or 3-lbs./1,000 sq. ft.

** Mixture percentages and varieties may change at any time*
