

Type	Description	PICKSEED Offering	Comparable Varieties	
Compact	<ul style="list-style-type: none"> * Low, compact growth * High quality turf * 1/2 inch cutting height * Excellent resistance to leaf spot * Long winter dormancy * Variable under summer stress * Often purple winter color 	Moon Shadow Alpine	Amazon Chicago II Blacksburg Blackstone Conni SRX2114 Wildwood	Indigo Moonlight Nugget P-105 Platini Broadway Goldstar Diva
Midnight	<ul style="list-style-type: none"> * Characteristics of compact type * Very dark green color * Late spring green-up * Good heat tolerance * Susceptible to powdery mildew * Variable resistance to summer patch 	Blue Velvet Granite Quantum Leap	Barrister Award Awesome Impact Liberator Arcadia	Midnight NuGlade Perfection Tsunami Midnight II Total Eclipse
America	<ul style="list-style-type: none"> * Characteristics of compact type * Finer leaf, higher density * Moderate winter dormancy * Moderate summer recovery * High summer patch resistance * Resistant to powdery mildew * Good in shade 	Langara America	Showcase Apollo Brilliant Bordeaux Arrow Mallard Sonoma	Kingfisher Unique Bedazzled Royale Boutique Glenmont SR 2284
Aggressive	<ul style="list-style-type: none"> * Aggressive lateral growth * High shoot density * Very wear tolerant * Quickly knit sod and repair * May predominate in blend * Variable in other characteristics 	Touchdown	A-34 Bariris Mystic Brunswick Cheetah Limousine	Northstar P-104 Touchdown Julius Orfeo
Bellevue	<ul style="list-style-type: none"> * Medium growth and shoot density * Medium wide leaves * Excellent winter color * Early spring green-up * Stemmy in spring * Moderate recovery from summer stress * Good leaf spot, stripe smut resistance * Susceptible to billbugs 	Banff	Bellevue Classic Dawn	Freedom Georgetown Haga Trenton
Mid-Atlantic	<ul style="list-style-type: none"> * Deep, extensive roots and rhizomes * Vigorous turf and medium-high density * High summer stress tolerance * Early spring green-up * Good winter performance * Rapid recovery from disease * Leaf spot susceptible except Preakness 	Bronco	Cabernet Eagleton Livingston Monopoly	Plush Preakness Wabash
CELA	<ul style="list-style-type: none"> * Better spring green-up than compact * Less stemmy than Bellevue * Good turf quality * Good stripe smut, leaf spot resistance * Variable winter performance 		Challenger Eclipse Jefferson	Liberty Rambo

Type	Description	PICKSEED Offering	Comparable Varieties	
BVMG	<ul style="list-style-type: none"> * High seed yields * Medium-good turf * Stripe smut susceptible * Medium low growth * Medium wide leaf * Very stemmy turf * Poor winter performance * Resistant to leaf spot * Billbug susceptible 	Crest Merit	Abbey Baron BlueChip BlueStar Cannon Clearwater Dragon Envicta	Fortuna Gnome Goldrush Marquis Nassau Raven Victa
Shamrock	<ul style="list-style-type: none"> * Moderate winter color * Good resistance to leaf spot * Good turf quality and sod strength * Billbug susceptible * High seed yields * Less stemmy than BVMG * Summer performance variable 		Brooklawn Champagne Champlain Lakeshore Parkland	Shamrock SR 2100
Cheri	<ul style="list-style-type: none"> * Good Turf Quality * Medium low growth, density and leaf width * Good resistance to stripe smut * Good sod strength * Moderate resistance to leaf spot * High seed yields * Less stemmy than BVMG * Moderate winter dormancy 		Cheri Cobalt	Serene Sydsport
Julia	<ul style="list-style-type: none"> * High turf quality * High density * Good summer performance * Very high wear tolerance * Good leaf spot, stripe smut resistance * Susceptible to brown patch, dollar spot 	Mercury	Avalanche Caliber Ikone	Julia Rampart
Other	<ul style="list-style-type: none"> * Exhibits traits that are intermediate between groups * Additional study required to classify 	Explorer	Allure Ascot Baronie Bartitia Baruzo Canterbury Cardiff Chateau Chicago Compact Coventry Cynthia	Freedom II Geronimo Jewel Misty Nimbus NuStar Rita Royce Seabring Sodnet Washington Yvette
Common	<ul style="list-style-type: none"> * Midwest Ecotypes * Erect growth and narrow leaf blades * Good summer stress tolerance * May go dormant during summer * High leaf spot susceptibility * Poor winter color and performance * Early seed production * Good for soil stabilization and conservation 	Kenblue Newport Park	Alene Garfield Geary Ginger Greenly	Huntsville Piedmont S-21 South Dakota Voyager

These charts are for general observation only. Individual performance of varieties within each classification may vary widely.
